

The meeting with the forest ranger

Autor: Remigiusz Woźniak

On 6th October 2011 a group of students of our center with housemasters: Edyta Bielka, Justyna P³aza and Honorata Krawczyk went on a trip to the forest in Ostrowiec łw. The aim of the trip was promoting ecological attitude among students and deriving satisfaction from nature. You are all very welcome to visit our Photo Gallery

The walk in the forest took place together with the forest ranger who led us an ecological path and talked about interesting and unknown facts connected with the existence of the forests. The students had an opportunity to talk with the forest ranger who answered all of the questions. The bonfire was an excellent occasion to conversation. This kind of spending free time was to students's liking which encourages us to plan the next trips. This is the report of our student, Micha³ G³ora:

On 6th October 2011 at 9 o'clock we went with Mrs Honorata Krawczyk , Edyta Bielka and Justyna P³aza in the direction of Gutwin to the Forestry "Zoo". The forest ranger welcomed us and said what we were going to do today. At the beginning we went for a walk through the forest path and the forest ranger talked about forest stations. Near each station there were noticeboards which informed us about different animals and plants found in the forest. During the hike, the forest ranger talked about his work and what he had to do to fulfill it. At the end, we roasted sausages and said goodbye to the forest ranger. After that we came back to our centre.
