Autor: Zdzisław Klusek

PL PARCOP - Wspólnota rodziców w społecznościach praktykujących

EN PARCOP - Parents inclusion communities of practice

RO PARCOP - Incluziunea parintilor in activitati comunitare

PT PARCOP - Comunidades de prática para a inclusão de pais

Project PARCOP will break fears and prove that process of European integration is open to all social groups, including disadvantaged group of parents in Socio - Therapy Center for Maladjusted Youths, Poland.

Projects activities will help parents and teachers learn (acquire) new skills in the field of ICT. Parents and teachers obtain certification which will prove the level of practical competence of working, using Windows tools. Windows software, together with the Internet open sources Ingot. Our project will help us to implement new methods of working with SEN, for social maladjustment. We will enrich didactic resources of our institution. Project will create area for new experiences and new skills for teachers. Project enhance motivation and interest in searching for national and cultural differences in extended EU. Participants will be actively learn English. Project activities will be conducted in the atmosphere of tolerance, respect. We will create multicultural community of practice which could be called "Family Europe". Results and program:

Partnership : coordination, monitoring, evaluation of instruments and reports, web page, virtual community, newsletter, project flyer, digital presentation of project, CD, learning programs, digital album of activities and more.
